PUBLIC CO., LTD.

OUR ORIGINS

Established in 1998 by our Chairman, Mr. Kyaw Lwin Oo, E.F.R began as a customs clearance agency.

With over 35 years of experience in the logistics industry,

Mr. Kyaw Lwin Oo built his career as a customs clearance agent before advancing to become the operations manager of the first Myanmar Container Line.

Through his deep expertise and extensive network of international freight forwarders, shipping agents, and logistics partners, Mr. Kyaw Lwin Oo successfully diversified E.F.R. into a group of companies, positioning us as a key player in the logistics and supply chain industry today. He currently serves as the Chairman of the Myanmar International Freight Forwarders' Association (MIFFA), further reinforcing his leadership and influence in the industry.

LOGISTICS INFRASTRUCTURE DEVELOPMENT

E.F.R Group is actively engaged in Logistics Infrastructure Development projects that strengthen Myanmar's role as a strategic logistics hub in the Greater Mekong Subregion (GMS) and the ASEAN Economic Corridor. Through long-term investment and collaboration with government agencies, international organizations, and private partners, we contribute to the modernization of logistics facilities and the enhancement of cross-border connectivity.

Our focus is on developing integrated logistics assets such as dry ports, inland container depots (ICDs), distribution centers, and border trade terminals, designed to support multimodal transportation and streamline trade flows between Myanmar and neighboring countries — including Thailand, China, India, and Laos.

E.F.R's initiatives aim to promote efficient trade facilitation, reduce logistics costs, and enhance cargo mobility along key border gateways such as Myawaddy–Mae Sot, Muse–Ruili, and Tamu–Moreh, thereby supporting national economic growth and regional integration.

Scope of Logistics Infrastructure Development
Development & Operation of Dry Ports and Inland Container Depots (ICDs)
Establishment of Logistics Hubs and Distribution Centers
Border Trade Terminal Development & Operation
Warehousing and Cold Chain Infrastructure Investment
Multimodal Transport & Intermodal Connectivity Planning

EVER FLOW RIVER TRADING CO., LTD.

Ever Flow River Trading Co., Ltd., a wholly owned subsidiary of E.F.R., operates import and export trading activities, connecting with foreign countries. At present, the company imports industrial-related goods from abroad and distributes and sells them within Myanmar. In particular, E.F.R brand rice mill rollers are continuously imported and supplied to enhance the efficiency and quality of rice milling at many rice mills across Myanmar.

In addition to providing logistics services related to international trading activities, E.F.R conducts import, export and trading activities by representing customers and provides comprehensive solutions aligned with current import-export policies. The company is dedicated to delivering high-quality trading services for both imports and exports.

E.F.R - G LINK EXPRESS SERVICES LIMITED.

E.F.R G-Link Express Services Ltd. is a leading subsidiary of the E.F.R Group, specializing in 3PL and 4PL logistics with a strong international presence. The company is renowned for its expertise in special project cargo handling, customs clearance, and freight forwarding, establishing a robust reputation and loyal client base. E.F.R G-Link pioneers LCL consolidation for garments and general cargo, efficiently managing ex-works processes. Their specialized export services focus on the EU for garments and rice, India for beans, and cross-trade routes from China to Russia and Cambodia to the EU, ensuring reliable logistics solutions.

EVER FLOW RIVER GROUP
PUBLIC CO., LTD.

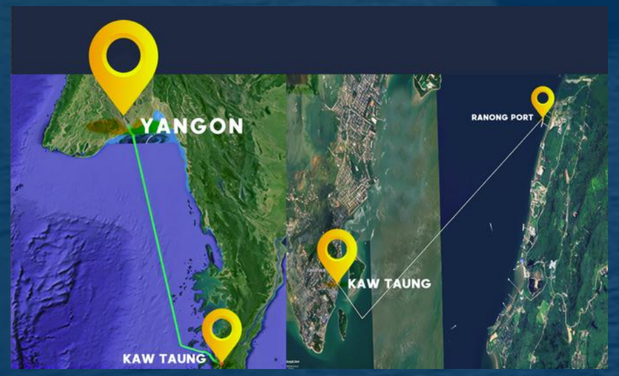

GOLD SHIPPING AGENCY SERVICES LIMITED.

Gold Shipping Agency Services Limited, a subsidiary of E.F.R. Group, was established in 2000 and specialised in Shipping Agency services. Now, the company operates uninterrupted trade flows to and from international markets by using MV. BEYPORE SULTAN barge cargo service along (Yangon- Kawthaung-Ranong) and (Ranong-Kawthaung-Yangon) border trade routes. To improve efficiency, the company now uses Laem Chabang-Ranong-Kawthaung-Yangon route instead of traditional trade camps to trade with Thailand, resulting in avoiding issues such as road disconnections at the border, ensuring the safe transportation of goods and trucks, reducing damage and losses, minimising unexpected delays or obstructions on the way, and enabling faster and more reliable transportation and lowering transportation costs, all of which benefit Myanmar's economy, exporters, importers and its citizens.

Due to the global container shortage, Myanmar faced logistical challenges with traditional sea trade.

Now, the company supports import cargo transport to Yangon ports and contributes to solving container shortage issues for both ports and shipping lines.

Moreover, with some import trade related charges partially covered, exporters benefit from a 20% to 30% cost reduction in Export Trade compared to current price rates, thereby resulting in more effective export trade for exporters in Myanmar in terms of logistic costs.
